Failure to obtain a permit prior to working on system will constitute stopping work of the job. Allow a minimum of 3 weeks for plan approval and issuance of the sprinkler permit. After all standard testing of system has been approved by the Enumclaw Fire Department, a letter of certification stating system was installed per all codes and requirements and per approved plans must be given to the fire department before final approval of system can be given.

PLEASE READ BEFORE SIGNING

I hereby certify that I have read and examined this application and know the same to be true and correct. Applications may be canceled for inactivity if an applicant fails to respond to the department's written request for revisions, corrections, actions or additional information within 90 days of the date of request, an extension may be available upon request. This application for permit may be revoked if the work is not in conformance with all laws, rules and regulations of the City of Enumclaw. The duty to insure code conformance rests with the builder, developer, or the homeowner, not the City of Enumclaw. All documents submitted to the City become public record and are available for public inspection and copying. I herein agree to reimburse the City for the cost of professional engineers and other consultants hired by the City to review and inspect this proposal and any other related permits. I represent the owner or contractor as signified above and am acting with the owner's/contractor's full knowledge or consent. Applicant agrees to comply with all conditions set forth on the issued building permit plus attachments to the permit.

I hereby request that the Fire Department review be done parallel with other city department reviews. I understand that review by other departments and/or changes resulting from these reviews may result in increased or additional charges or fees.
